

outputs 316, 320. The outputs 316, 320 of the multiplexers 304, 308 are provided to an adder or subtractor ~~324~~ 321. The adder – subtractor comprises an adder that provides a first output 328 comprising a value resulting from the addition of the value output by the first multiplexer 304 on output line 316, and the value output by the second multiplexer 308 on input line 320. The adder – subtractor ~~324~~ 321 additionally includes a subtractor that provides as an output the subtraction of the value provided by the second multiplexer 308 from the value provided by the first multiplexer 316 on second output line 332. --
